**TILES - PART 3**

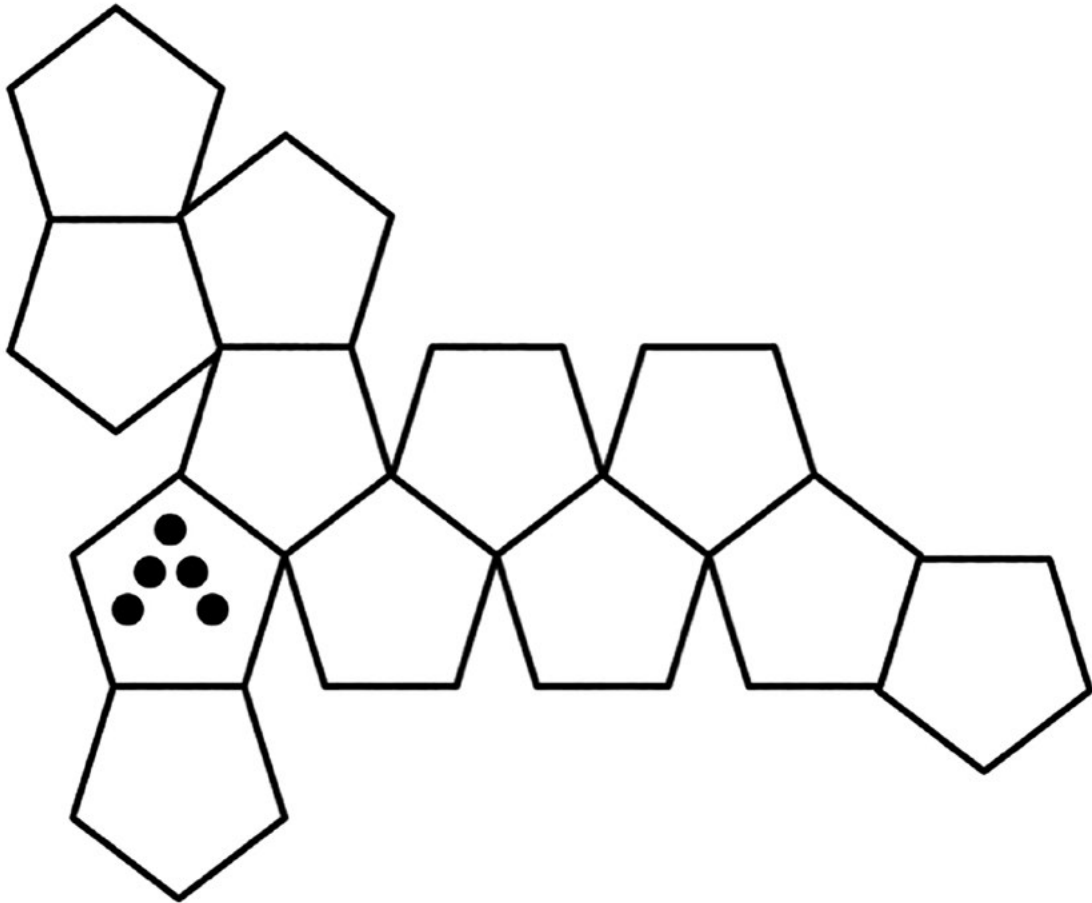

**TILES - PART 4**

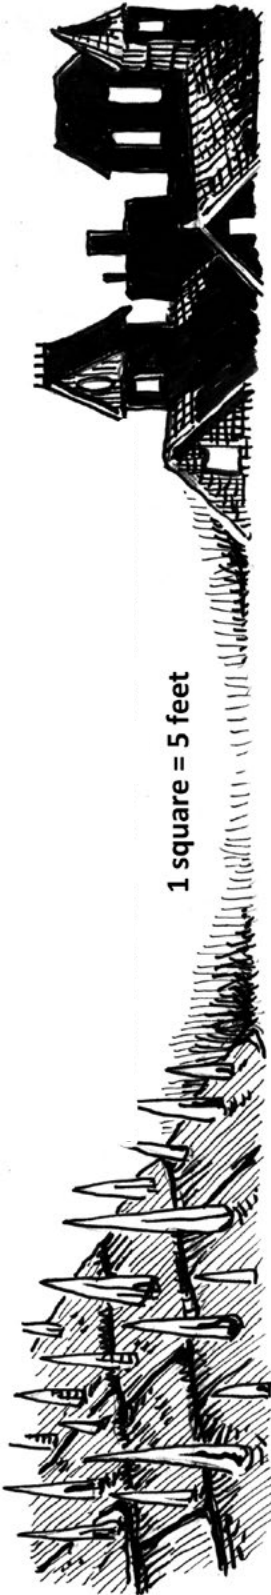

There are always nine  
in opposition!  
—Puzzlesmith Harbru

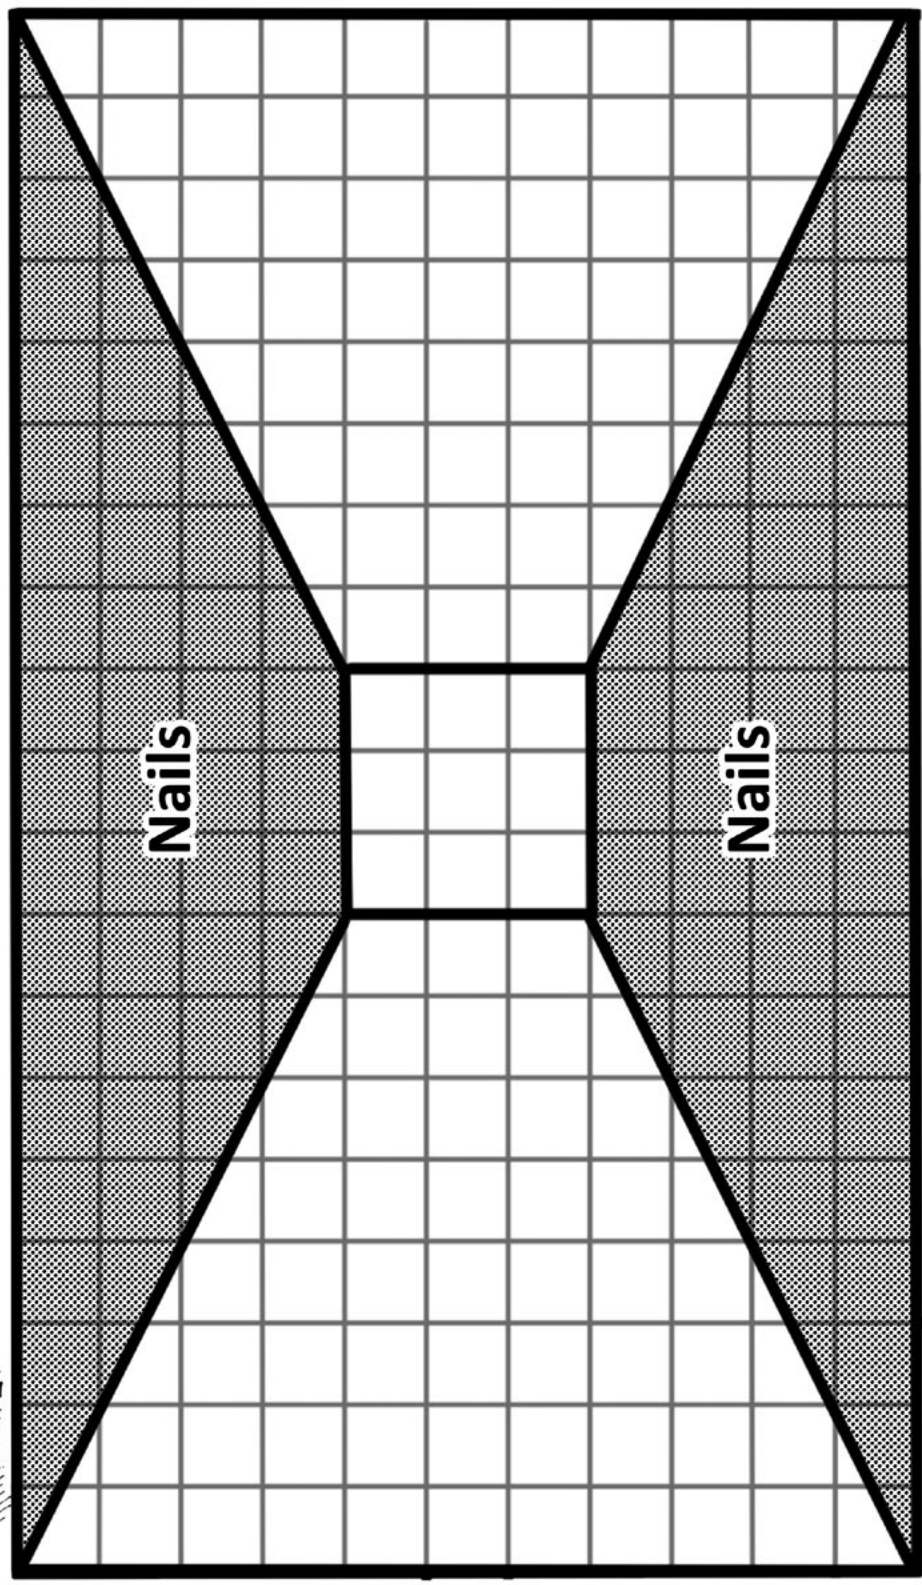

## HANDOUT A

**HANDOUT B**

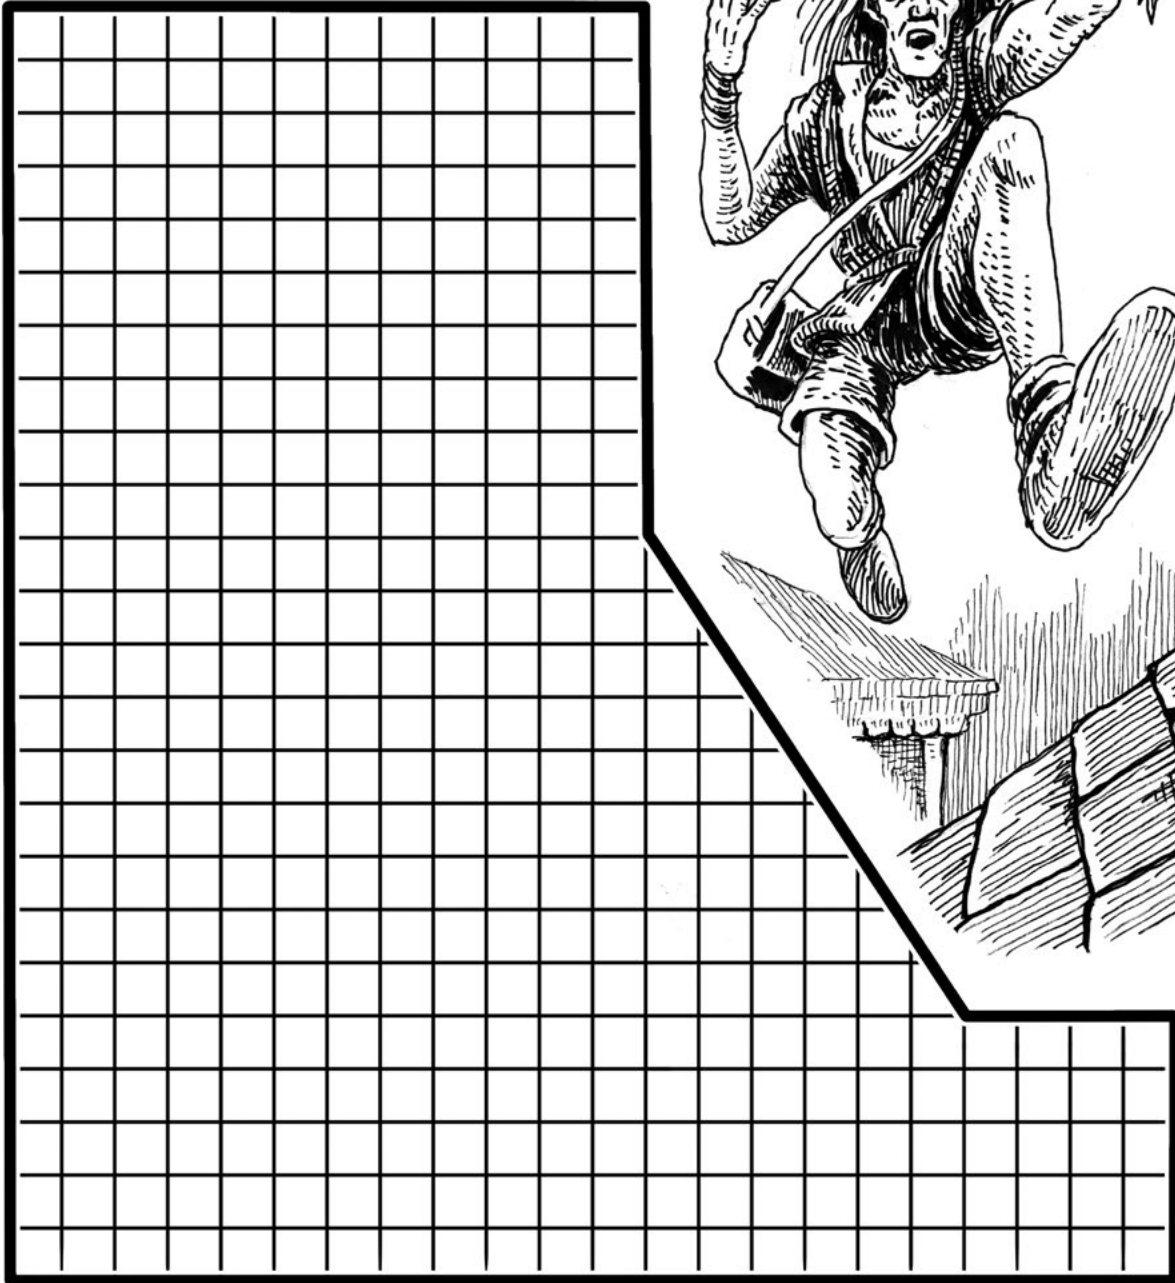

1 square = 5 feet

# HANDOUT C

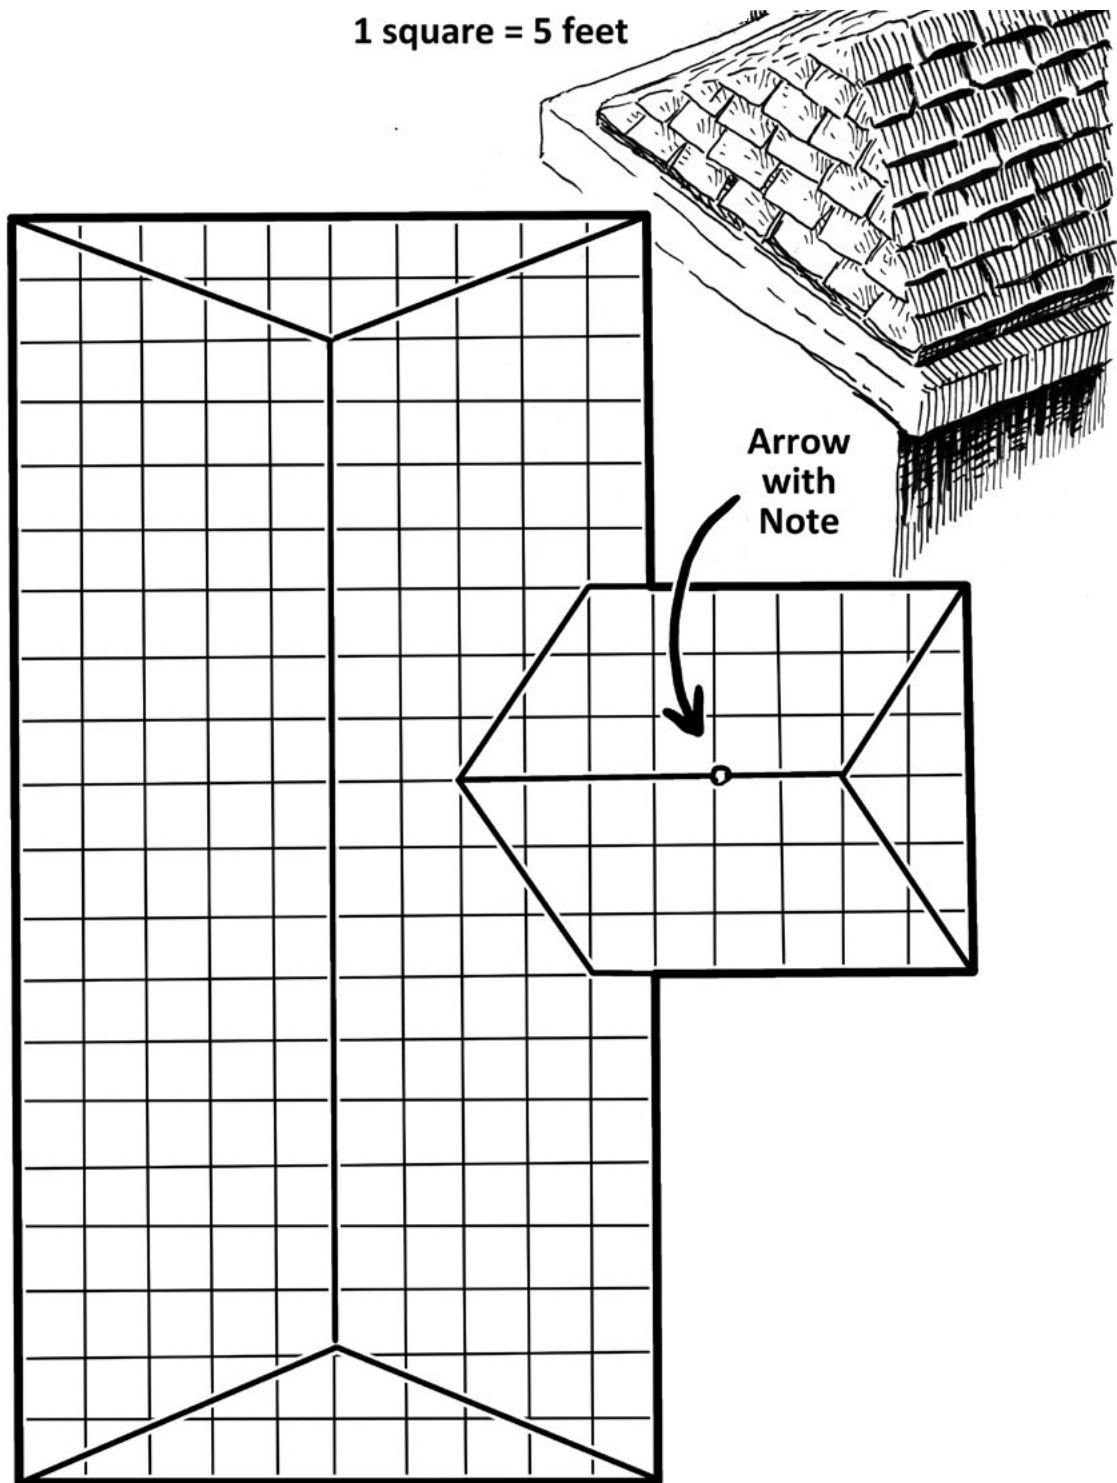

1 square = 5 feet

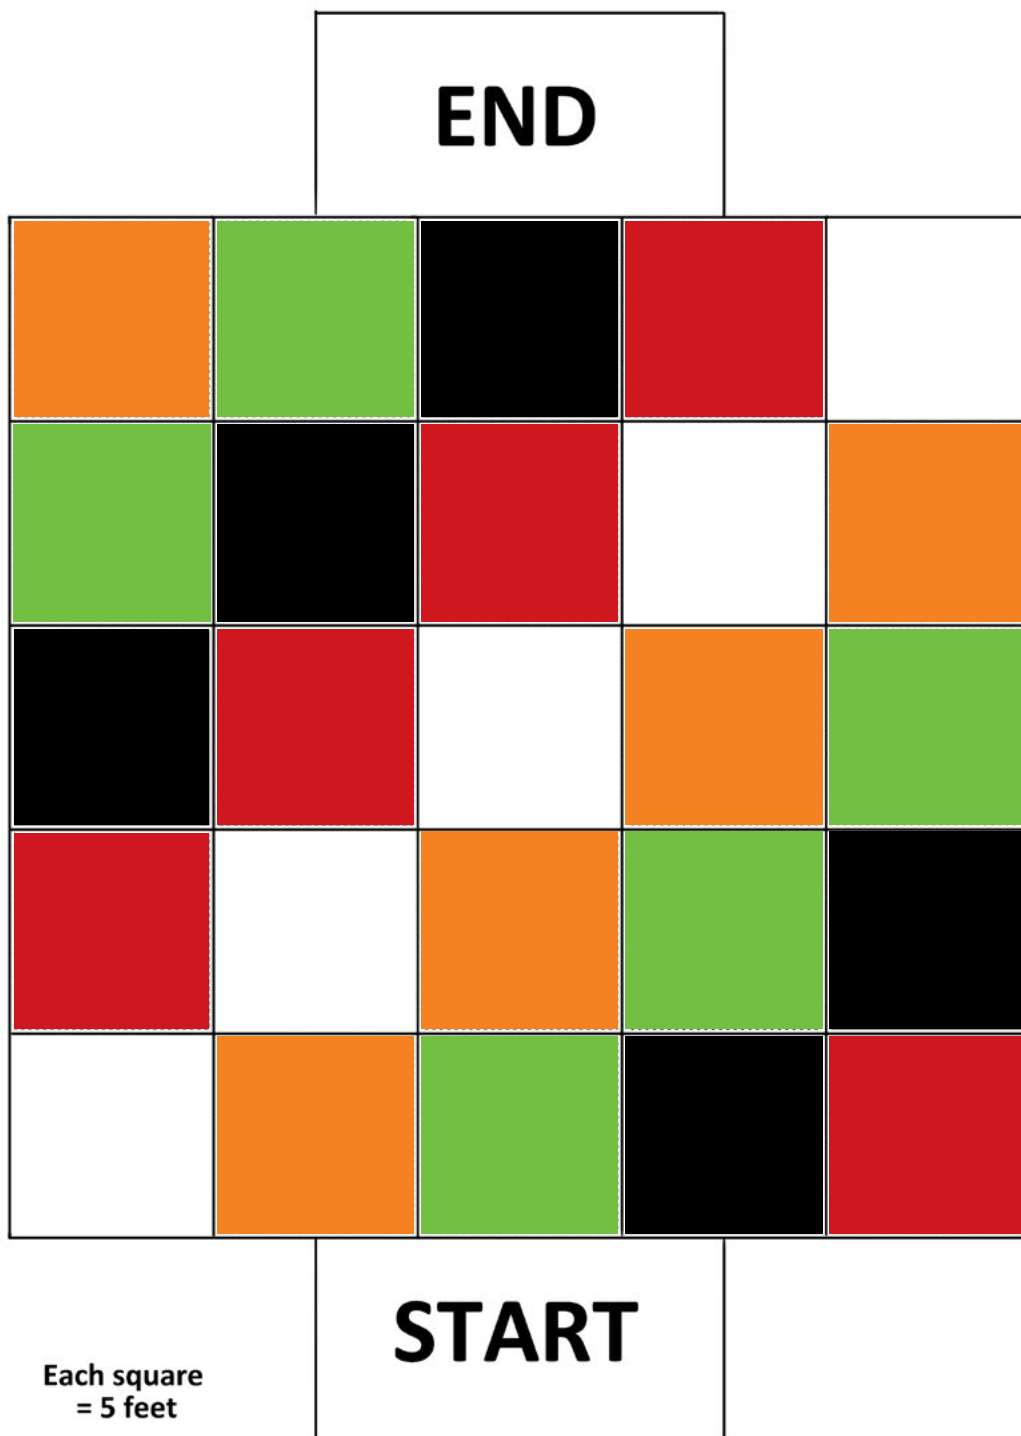

## HANDOUT D

1 square = 5 feet

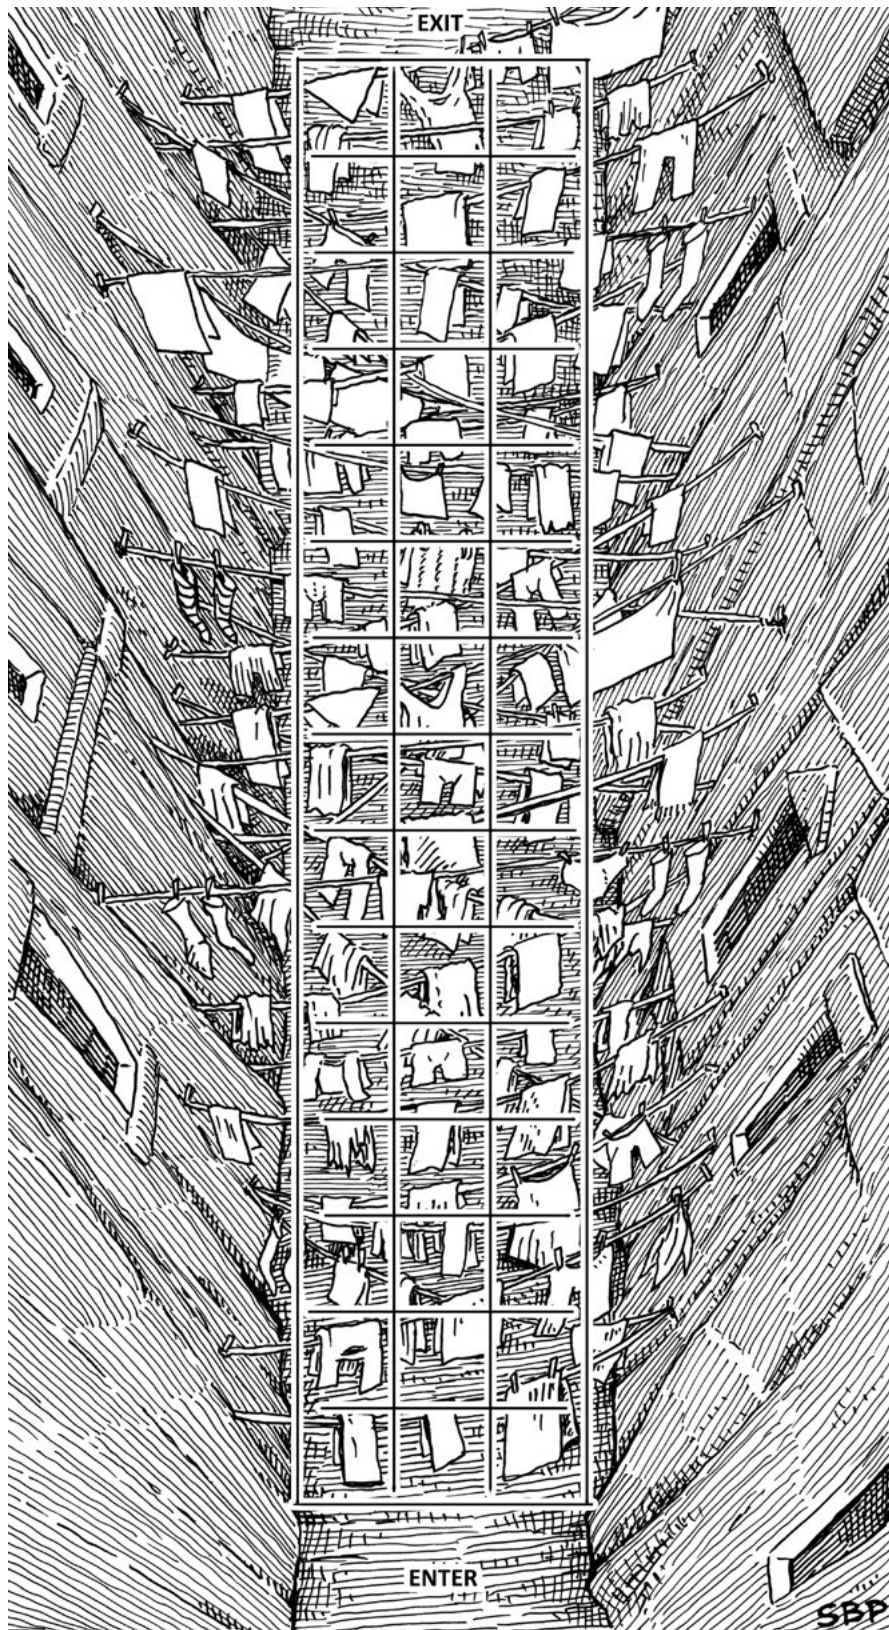

## HANDOUT E

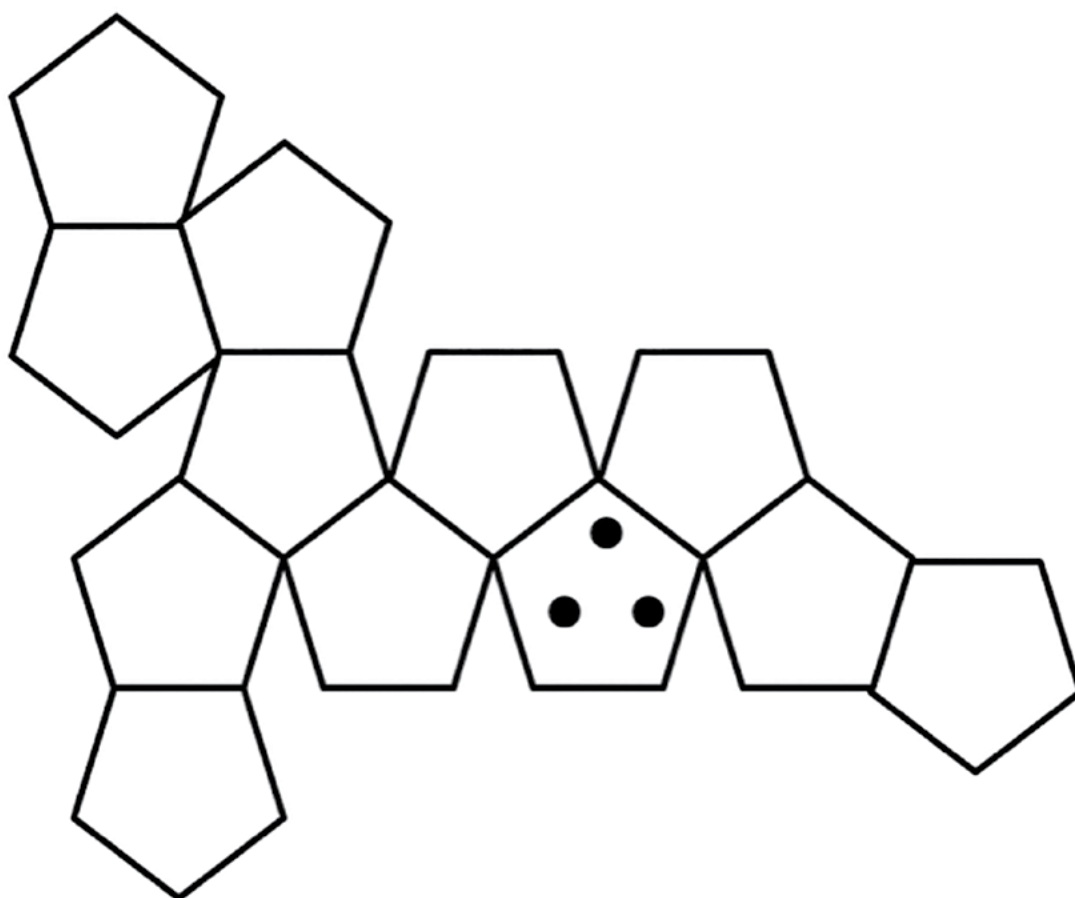

## HANDOUT F

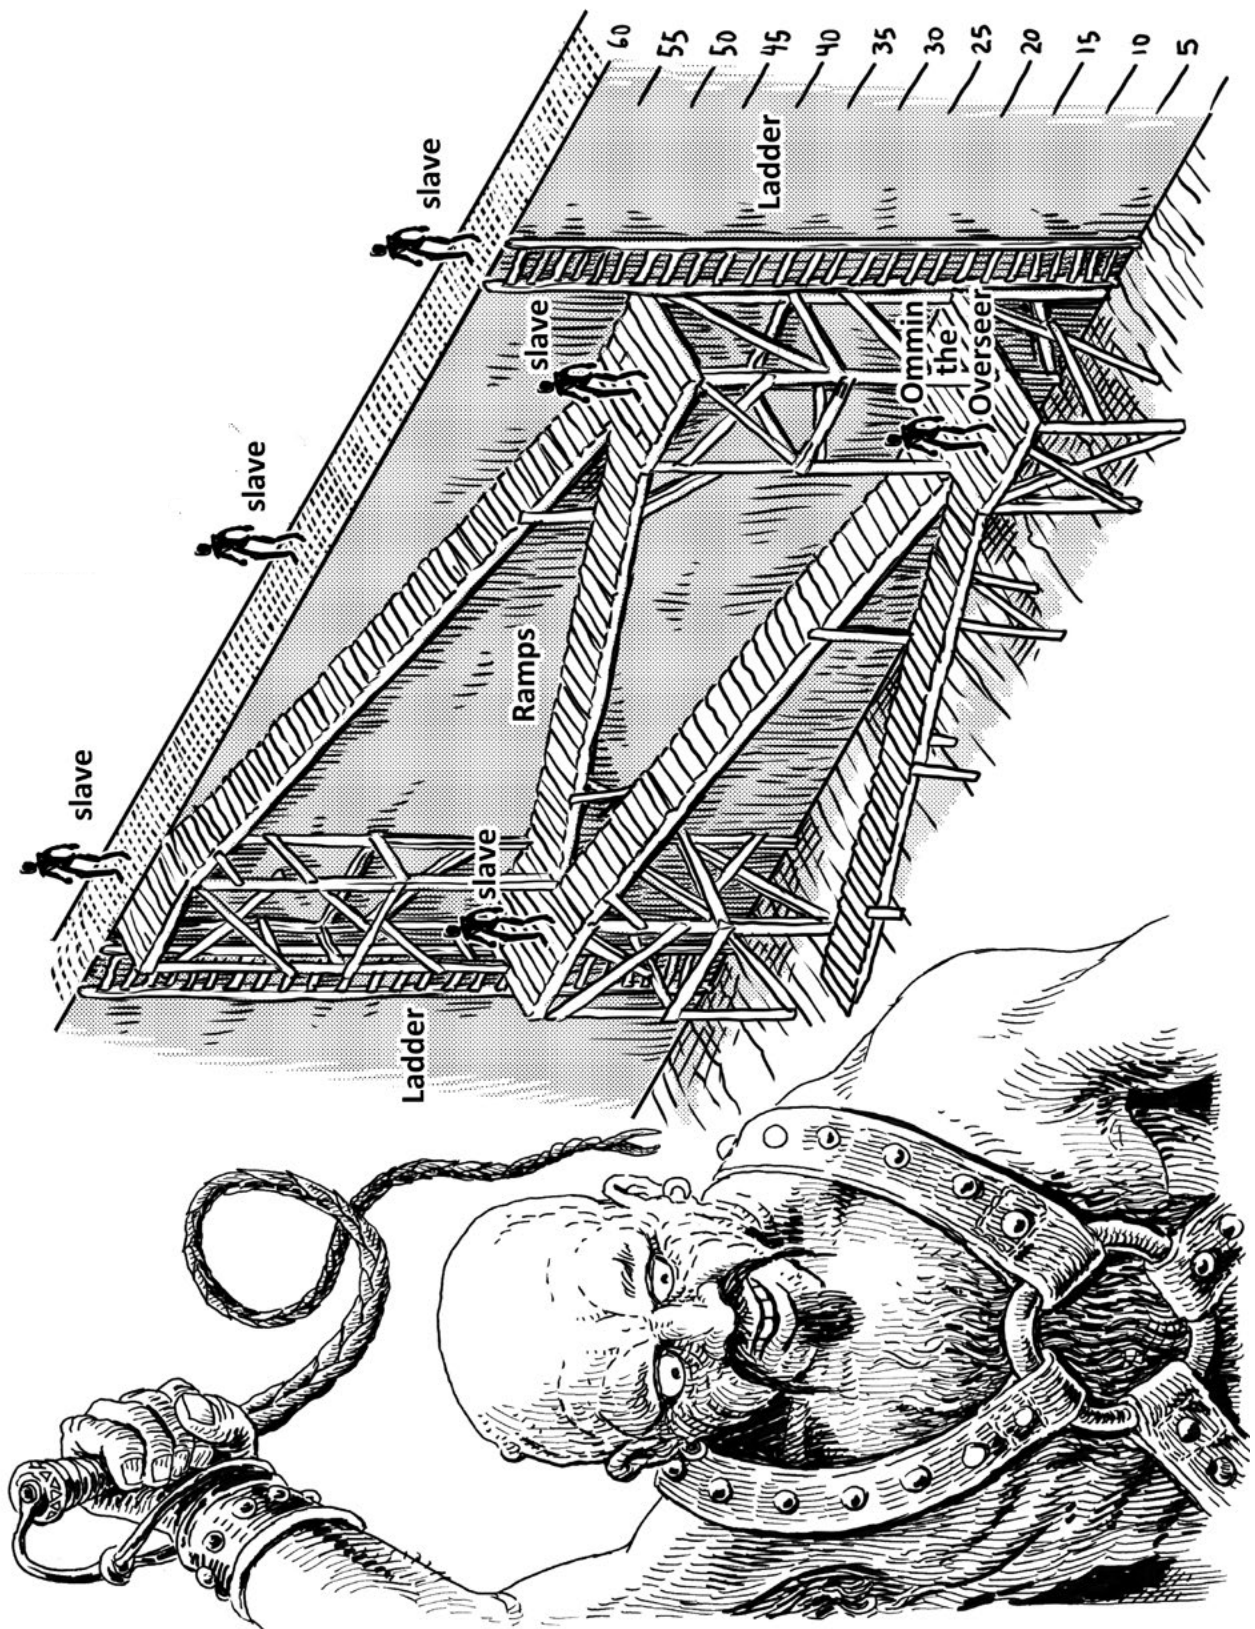

## HANDOUT G

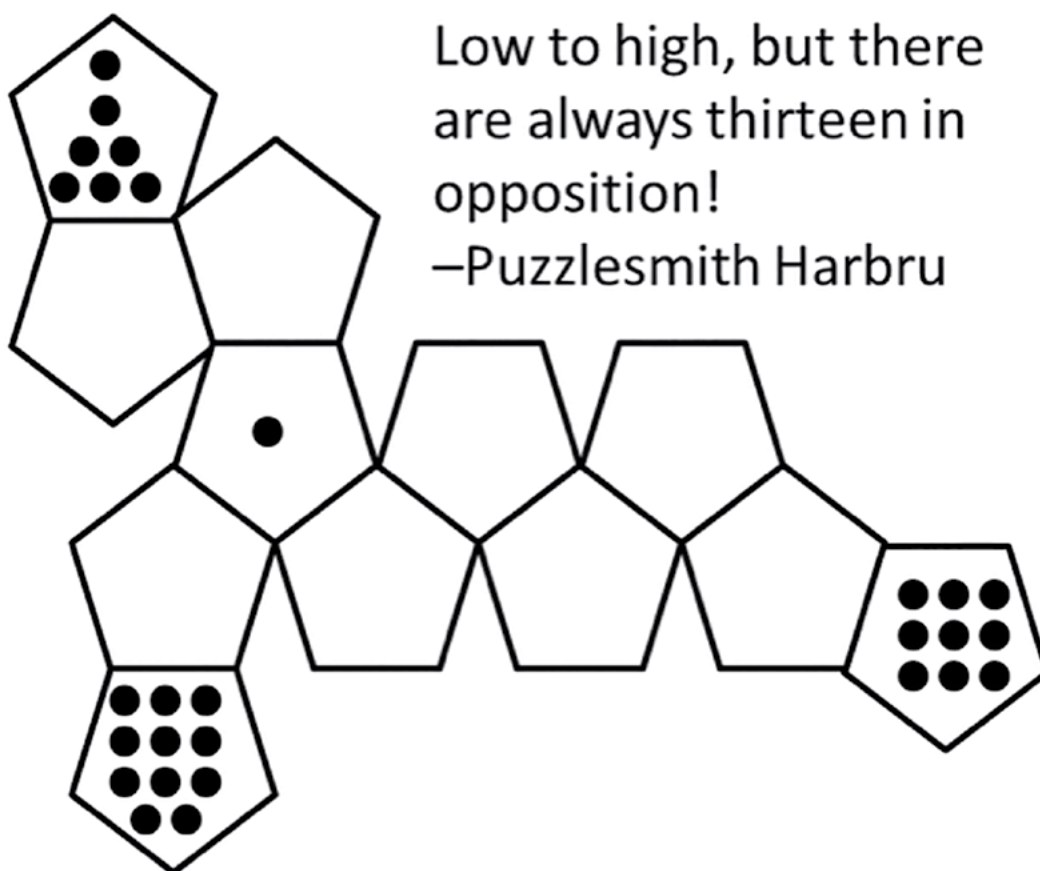

**HANDOUT H**

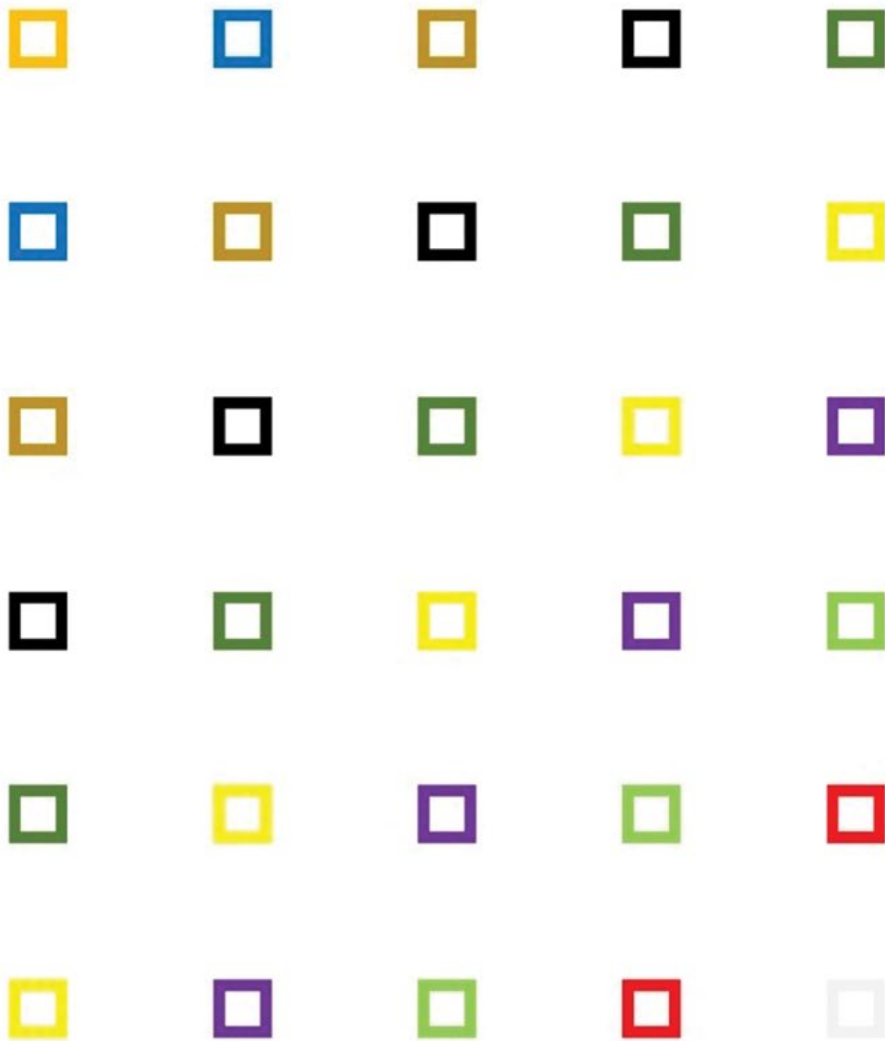

## HANDOUT I

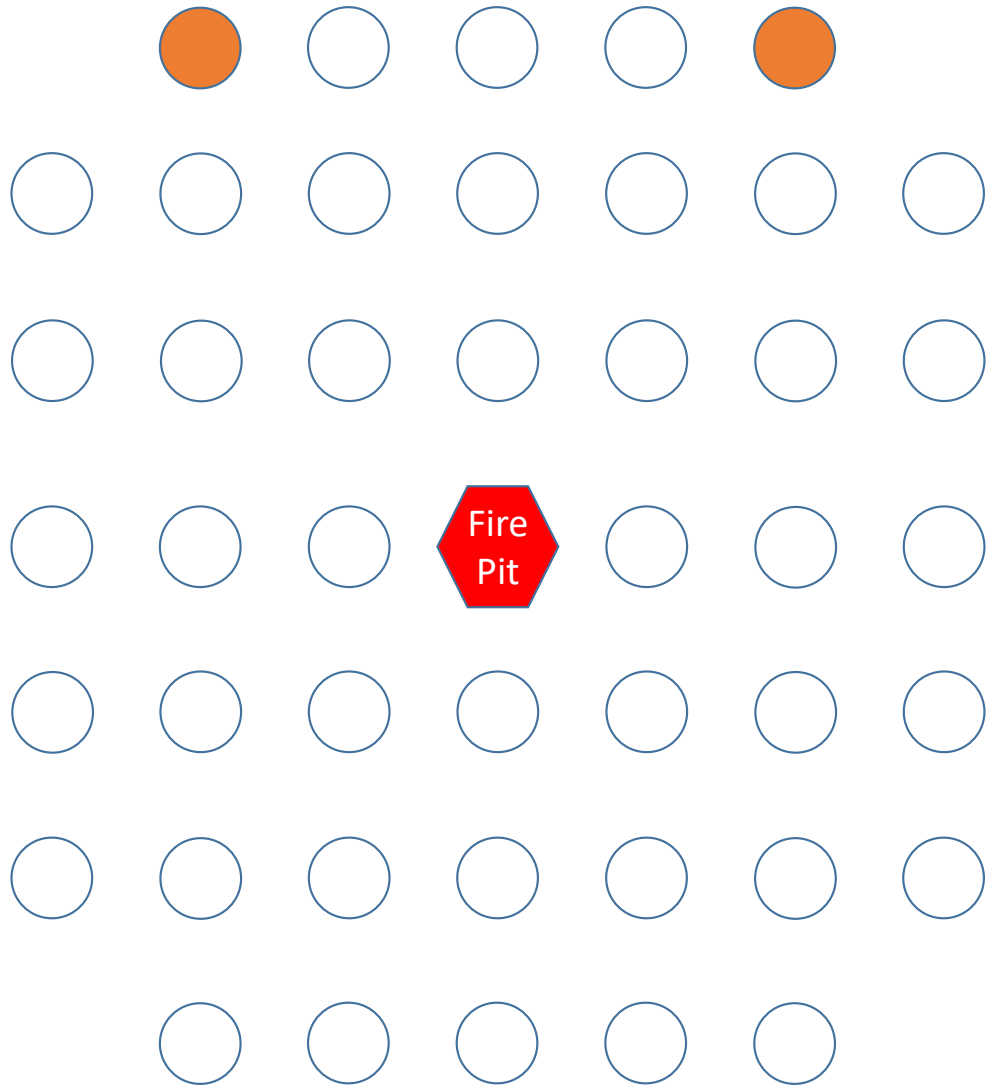

## HANDOUT J

Left to right,  
top to bottom,  
the key is all,  
but never longer!  
-Riddlewright Terley

## HANDOUT K

	5'		6'		7'		8'		9'		10'
	4'		5'		6'		7'		8'		9'
	3'		4'		5'		6'		7'		8'
	2'		3'		4'		5'		6'		7'
	1'		2'		3'		4'		5'		6'

Solution: 30' of correctly filled holes of any combination.

E.g.

$$6' + 7' + 8' + 9' = 30'$$

$$6' + 3' + 4' + 8' + 9' = 30'$$

$$1' + 2' + 3' + 7' + 8' + 9' = 30'$$

Etc.

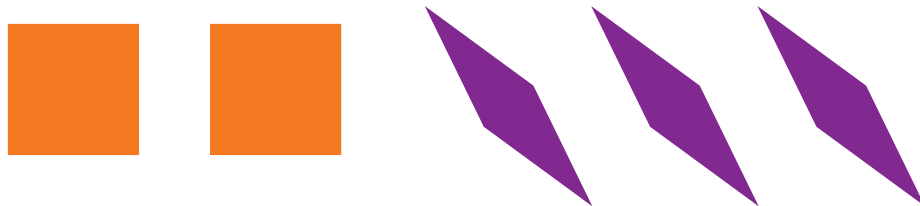

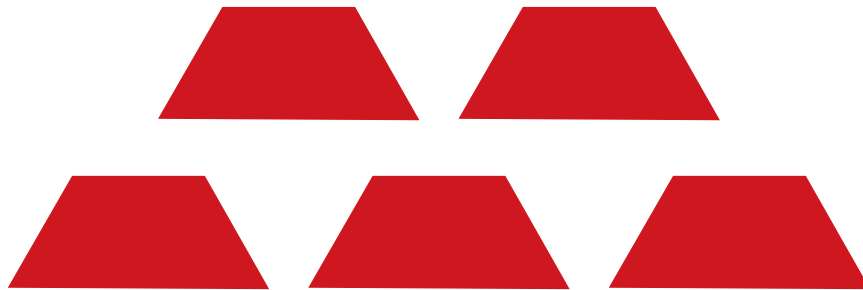

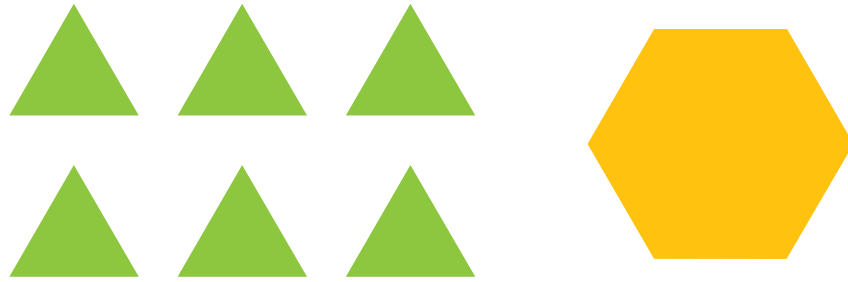

With each incorrect attempt (total length of inserted rods is greater than 30'), sand pours from all the holes of the same color as the last triggered hole, increasing the rate at which the room is filled.
