

Lotteria

Using the Lotteria Deck

At the beginning of the House of the Red Doors, Jassafae performs a reading that reveals the symbols that govern the character's past and wished future. A future Jassafae grants if the player can successfully interpret the symbols and the moveable manse's challenges.

These cards are props to be revealed during the reading. During the reading the player may see and touch them. Once the character steps through the red door, these cards should be removed from view. If the player opts to look in the thonged pouch during the adventure, the cards shown during the reading can be returned to the player.
