

# Hexanomicom

Issue #1

COMPATIBLE WITH  
**DCC**  
RPG

Maps, stickers, & death for DCC RPG!

The **Hexanomicom** is a hexmap generator for use at the table.  
Easily create Appendix-N style landscapes to fill the spaces between adventures. With this tool you can create a casual setting for your party as you play.  
Tables are included that help you name the areas of your map and create the creatures that inhabit them.

Area Map

## Items

This booklet

1 Area map sheet

1 World map sheet

1 Judge's Map sheet

2 Map sticker sheets

1 Month calendar sheet

1 Year calendar sheet

1 Fleeting Luck Token sticker sheet

## Colophon

This work was created by Ariel Churi in New Jersey, 2019

Created using free and open source tools. The text was written and edited in Markdown. The Markdown was exported to HTML. The HTML was then styled for print output with CSS. The HTML was converted to PDF using the Prince command line tool.

The artwork was hand drawn in blue pencil and inked with ink pens. The art was then scanned and the scanned image was converted to vector in Inkscape before being saved as an SVG file. Krita was used for some effects. This was created on a Dell computer with the KDE Neon operating system.

Cat from *Mountain Lion Cougar* in the 2018 Gongfarmer's Almanac, Volume 3; © 2018; Author Anne Hunter.

The Hexanomicron calendar is based on Michael Curtis's *The Adventurer's Almanac*. Goodman games, 2017.
