How to Use this Sheet

1. Fill the circle next to your current STR. This determines the number of spaces you have available. For example, a STR 10 character would have 12 spaces available.
2. Write down your carried and worn items, along with their space requirements, in the "Items Carried" list.
3. For each carried item requiring 1 or more spaces, record (or draw) it in an available space.
4. If you are using more spaces than your STR allows, make note of the encumbrance penalties on your character sheet. Remember, Warriors and Dwarves can carry more stuff!
