## PUT A FACE TO THE NAME!

GameMastery Face Cards depict a wide range of characters, from kindhearted heroes to black-hearted villains, suitable for use with any fantasy roleplaying game. Each card features a unique character, allowing the Game Master

to use a different card for each nonplayer character that appears in game. Alternatively, a player can use any of these cards as a portrait for his or her

own character. The back of each card has space to record any information you want, such as the character's name, place of residence, brief statistics, or personality notes.
