— INTRODUCTION

Welcome to the *WFRP Character Pack*. As you've no doubt noticed, the major feature of this accessory is the pad of character record sheets. This booklet complements the sheets with a series of aids for players. First, a recap of the Character Creation process is provided, with the relevant charts. Second, there is a series of much-expanded name generators for the PC races. Third, there are summations of combat actions and the arcane and divine lores of magic, which are quite handy during play and can be photocopied. Lastly, there's a grimoire sheet that spellcasters can use in conjunction with their character sheets to record their spells.

— CHARACTER CREATION RECAP —

The following section replicates the essential charts for Character Creation from the *WFRP* core rules. If you have more players than rulebooks, you can use this booklet to speed up the process. For reasons of space, it does not explain the process in the way that *WFRP* does, but this shouldn't be a problem for players familiar with the game.

CHARACTER CREATION

- 1) Choose your race.
- 2) Generate your Characteristics.
- 3) Record your racial features.
- 4) Determine your personal details.
- 5) Roll for your starting career.
- 6) Record the details of your career.
- 7) Take one free advance.
- 8) Start playing *WFRP*!

NAMES

The *WFRP* core rulebook provides some example names for each PC race. There are, however, many more to choose from and this section provides quite a selection. You can either choose the name you want or roll on the tables and let fate be your guide. Tables are provided for each race—Dwarf, Elf, Halfling, and Human.

HUMAN NAMES

The following tables can be used to generate Human names for Empire folk, both male and female. First, roll on **Table CP-1: Imperial Human Names** and consult the entry under the proper sex. Then go to the listed chart and roll percentile dice again to generate a name.

DWARF NAMES

The following tables allow you to generate random Dwarf names. Each name has two elements and you can make a name by simply combining them. All Dwarf characters start by rolling once on **Table CP-8: Dwarf Element 1**. For female characters, you then generate the second

part on **Table CP-9: Dwarf Female Element 2**. For male characters, you generate the second part on **Table CP-10: Dwarf Male Element 2** instead.

Element 1 + Element 2 = Dwarf Name

— ELF NAMES —

The following tables allow you to generate random Elf names. Each name has two elements and an optional connector and you can make a name by simply combining them. All Elf characters start by rolling once on **Table CP-11: Elf Element 1**. You may then, at your option, roll on **Table CP-12: Elf Connectors**. For female characters,

you then generate the last part on **Table CP-13: Elf Female Element 2**. For male characters, you generate the last part on **Table CP-14: Elf Male Element 2** instead.

Element 1 + Connector (optional) + Element 2 = Elf Name

SURNAMES

You can use the information on this page to generate a surname for your character if desired. Many Humans don't have surnames, going by their village or town name if anything. A man might be known as Johann of Esk, for example.

There is no chart for Dwarf surnames, as Dwarfs take a family name based on one of their parents. This is simply a first name, with either -son for male characters or -sdotr for female characters. You can use

Tables CP-9 to CP-10 to generate first names your parents, then apply the suffixes as noted. For example, the daughter of Grimkrina would have a surname of Grimkrinasdotr.

Dwarfs and sometimes Humans also earn flattering surnames through their deeds that may later become family names for their descendants. A might warrior, for example, may become known as Shieldhewer or Orcslayer.

— MEET THY DOOM! —

Soothsayers and fortunetellers are ten a penny in the Empire. They long ago gave up promising folk riches, happiness, and tall handsome strangers. Instead they stick to things that might actually happen—death, doom, plague, etc. Most folk receive a foretelling of their demise at their tenth birthday.

TABLE CP-21: FORETELLING OF DOOM

Roll	Prognostication	Roll	Prognostication
01-03	Thy end will be a sticky one.	54-58	Death comes from above.
04-06	Beware beasts of the field, yea and red too.	59-65	The darkest rot will eat thee.
07-09	The written word will be your doom.	66-68	Thy end arises from flames unseen.
10-12	Lack of breath shall kill thee.	69-72	Pride, yea, and vanity shall ruin thee.
13	The number three.	73-75	You shall sup at the chalice of corruption.
14-16	The Beast of Brass shall claim thy soul.	76-78	The withering eye is thy reward.
17-22	Eat not chitterlings nor any meat with tubes in.	79-85	Violent means brings your Doom.
23-28	The Gods will strike thee down.	86-88	Thrice haunted, you shall die.
29-34	You shall die in bed, but not your own.	89-92	The flashing blade will end thy days.
35-38	Thy last breath be in Morrslieb's sight.	93-95	Green is thy undoer.
39-44	Water in all its forms is thy nemesis.	96-97	Ranald shall abandon thee.
45-48	Thou art not as good as thou thinkest thou art.	98-99	Morr sends a maiden.
49-53	Linger not upon the privy, nay, nor long drop neither.	00	???????

— PERSONAL HERALDRY —

Though most families of the Empire do not have "official" crests, there is a long tradition of heraldry and decoration amongst Imperial citizens. Painted armour, embossed jewellery, inscribed weapons, relics, charm bones, and gewgaws are all exceedingly common. The most popular form of this, at least amongst the martially inclined, is the decorated shield. Used both as an identifier and a guard against theft, these symbols are used by anyone who's anyone in Imperial society.

— HUMAN BIRTHPLACE —

These expanded tables allow you to more specifically determine where in the Empire your character hails from. Your first roll determines your province and your second determines what city, town, or village you came from within that province. You can use this chart in place of the one in the core rules if you want a more specific place of origin.

— COMBAT ACTION SUMMARY —

This section summarizes Basic and Advanced Actions used in combat in *WFRP*. Remember that this list isn't all-inclusive; it represents the most common actions. If you want to do something else, just tell your GM and he'll let you know what type of action it is and what (if anything) you need to roll.

— BASIC ACTIONS —

AIM

The character takes extra time to set up a melee or missile attack, thus increasing the chance to hit. If the character's following action is a standard attack, he gains a +10% bonus to Weapon Skill (for melee attacks) or Ballistic Skill (for ranged attacks).

Action Type: Half

CAST

The character unleashes a magic spell. If the character spends an extra half action, the Casting Roll can be augmented with a Channelling Skill Test. See **Chapter 7: Magic** in the core rulebook for more information. Casting can be an extended action. You cannot cast more than one spell per round.

Action Type: Varies

CHARGE ATTACK

The character rushes up to an opponent and delivers a single attack. The opponent must be at least 4 yards (2 squares) away from the character but within the character's charge move (see **Table 6-1: Combat Movement in Yards** in the core rulebook). The last 4 yards (2 squares) of the charge must be in a straight line, so the charger can build up speed and line up with the target. The charging character gains a +10% Weapon Skill bonus.

Action Type: Full

DISENGAGE

The character breaks off from melee combat and may move away (see **Table 6-1: Combat Movement in Yards** in the core rulebook for distances). Difficult terrain like rubble or underbrush reduces distances moved by half (round up). If trying to move away from one or more melee opponents without using the disengage action, each opponent gets a free attack against the character before he moves away. This is a bonus attack and is made in addition to any other attacks opponent's make during their turn.

Action Type: Full

MOVE

The character can make a short move (see **Table 6-1: Combat Movement in Yards** in the core rulebook for distances). Difficult terrain like rubble or underbrush reduces distances moved by half (round up).

Action Type: Half

READY

The character can unsheathe a weapon, or pull an item out of a convenient pouch or pocket. The character also put away an item already in hand at the same time. So, for example, a character could sheathe a sword and unsheathe a dagger as one action. A character can also use this action to take a flask or other container and drink a draught.

Action Type: Half

RELOAD

The character can reload a missile weapon. See **Chapter 5: Equipment** in the core rulebook for the time taken to reload different ranged weapons. Reload can be an extended action.

Action Type: Varies

STAND/MOUNT

A character can get up if currently on the ground, or mount a riding animal like a horse or pony.

Action Type: Half

STANDARD ATTACK

A character can make one melee or ranged attack.

Action Type: Half

SWIFT ATTACK

The character can make a number of melee or ranged attacks equal to his Attacks Characteristic. The character must have Attacks 2 or better to take advantage of this action. If making a missile attack, a character can only use this action if the weapon can be reloaded as a free action

or if the character has a loaded pistol weapon in each hand. In the latter case, the character can make a maximum of 2 attacks (one per weapon).

Action Type: Full

USE A SKILL

The character uses a skill, which usually involves making a Skill Test. See **Chapter 4: Skills and Talents** in the core rulebook. This can be an extended action.

Action Type: Varies.

— ADVANCED ACTIONS —

ALL OUT ATTACK

The character makes a furious melee attack, exposing himself to danger in order to land a forceful blow. The character's melee attack gains a +20% Weapon Skill bonus. However, until his next turn, the character cannot parry or dodge.

Action Type: Full

DEFENSIVE STANCE

The character strikes no blows this round, preferring instead to concentrate on self-defence. Until his next turn, all melee attacks against the character suffer a -20% Weapon Skill penalty.

Action Type: Full

DELAY

The character waits and watches for an opportunity. When the delay action is used the character's turn ends immediately, but a half action is reserved for later use. Any time before his next turn, the character can take his half action. If two conflicting characters are both trying to use a delayed action simultaneously, make an Opposed Agility Test to see who acts first. If the prepared action is not taken before the character's next turn, it is lost.

Action Type: Half

FEINT

The character pretends to attack in one direction, deceiving his opponent and throwing off his defence. This is resolved as an Opposed Weapon Skill Test. If the character wins, his next attack cannot be either dodged or parried. If the character's next action is anything other than a standard attack, this bonus is lost.

Action Type: Half

GUARDED ATTACK

The character attacks carefully, making sure he is well defended from counter blows. He makes a melee attack with a -10% Weapon Skill penalty. Until his next turn, the character gains a +10% bonus on any attempted parries and dodges.

Action Type: Full

JUMP/LEAP

The character jumps down or leaps across something. For details on jumping and leaping, see page 138 of *WFRP*.

Action Type: Full

MANOEUVRE

The character uses superior footwork and aggression to force his opponent to move 2 yards (1 square) in a direction nominated by the player. If desired the character can advance 2 yards (1 square) as well. Manoeuvre is resolved as an Opposed Weapon Skill Test. If successful the character's opponent is moved as described. The opponent cannot be forced into another character or terrain feature (wall, barrel, etc.).

Action Type: Half

PARRYING STANCE

The character readies to parry an incoming blow. Any time before his next turn, the character can try to parry one successful melee attack against him as long as he is aware of the attack. Parrying stance ends at the start of his next turn, regardless of whether he parried a blow. See **Dodge and Parry** on page 129 of *WFRP* for more information on parrying.

Action Type: Half

RUN

The character runs at full speed (see **Table 6-1: Combat Movement in Yards** for distances). This makes the character harder to hit with missile weapons but easy prey for melee attacks because he isn't actively defending. Until the character's next turn, ranged attacks against him suffer a -20% Ballistic Skill penalty, but melee attacks gain a +20% Weapon Skill bonus. Characters cannot run in difficult terrain.
